

# Solidarity with the Republic of Moldova

The Republic of Moldova is on the frontline of a historic struggle: defending democracy against Putin's hybrid war of propaganda, corruption, intimidation, and destabilization.

We stand with President Maia Sandu, the Government, the Parliament, and every citizen who chooses democracy, justice, European integration, and true sovereignty. There is no middle ground between freedom and tyranny — Moldova's choice is the world's choice, freedom!

The parliamentary elections on **September 28, 2025**, will decide Moldova's future. A victory of pro-Russian forces would shatter regional security, threaten NATO's eastern flank, and hand the Kremlin another launchpad for further aggression against Romania and Ukraine.

Now is the moment to reject Russian disinformation, to defend truth, liberty, and democracy, and to secure Moldova's European path. Moldova's freedom is our freedom.

In the face of *lies*, choose *Truth*.

In the face of *tyranny*, choose *Freedom*.

In the face of *fear*, choose *Democracy*.

We stand with the Republic of Moldova — ***stand with us!***
